## CAO/CLERK-TREASURER'S REPORT

Age is an issue of  
mind over matter.  
If you don't mind,  
it doesn't matter.

"Now's the time to start something new," is the theme for the 34th annual Senior's Month. We depend on our seniors for so much in Prince Township. They keep our library vibrant and viable. The Prince Women's Institute provide money towards an Algoma University award, and often cater delicious meals for events in the community. Others are working toward making our future farmer's market, being housed in the new Festival and Events Pavilion a huge success. **That's something new!** Thank you to each and every senior in Prince Township! Check for programs and services at [Ontario.ca/AgingWell](http://Ontario.ca/AgingWell).

The final step of last years Prince Lake Road project, the paving, should be completed in June. For those owners of properties on the lake, please watch for signs and notices of traffic delays. Thank you to the Ontario Community Infrastructure Fund (OCIF) for their generous support, making this project possible.

The culvert on Walls Road will have major repairs completed this summer. Watch for detours. As well, we have plans for repair work to be done on Town Line Road.

The Prince Township Festival and Events Pavilion is now a reality. Come and enjoy the Grand Opening festivities planned for June 9<sup>th</sup>. Thank you, again, to FedNor and NOHFC for their support.

**Wishing all the fathers in Prince Township a very happy and restful Father's Day!**

Union Gas presence is visible in Prince Township. The installation of the pipelines will commence in late June/early July. If you are interested in signing up and have not yet done so, you can go online to [savewithgas.com/prince](http://savewithgas.com/prince).

Enjoy this beautiful summer weather we are experiencing.

We hold community meetings so that consumers can have an opportunity to:

- speak with utility representatives directly and ask why they want the change they're proposing
- ask us questions about our process and find out how to get involved
- give us their comments about the application, verbally or in writing, which we give to the decision-makers to consider as part of the hearings process

Consumers are also welcome to make a presentation if they like. We keep notes about all verbal questions and comments at the meeting. We also file a report so the decision-makers at the

Ontario Energy Board are aware of all the concerns that utility customers raise about an application – the very people who may be affected by the changes their utility is requesting.

## **Barbecue Fire Safety**

As barbecue season begins the Prince Township Volunteer Fire Department want to remind everyone how important it is for the entire family to be savvy about outdoor cooking. All outdoor grills can be extremely dangerous if not cared for and used properly.

### **Safety at the grill**

Never store combustible materials next to the barbecue.

Before covering or storing your barbecue, make sure it has been shut off, is completely cool and/or has no hot coals.

Never leave the barbecue unattended when in use.

Keep gas hoses away from hot surfaces and hot grease.

Keep children and pets away from the gas valve and the grill.

Keep loose clothing away from the hot barbecue.

Don't put water on a grease fire – it will only cause flames to flare. Use an approved fire extinguisher or baking soda.

Don't operate your barbecue near wooden fences or walls, beneath a combustible roof, under a tree, near vinyl siding or in an enclosed space (such as a garage).

Alert Ready is designed to deliver critical and

When finished, first turn off the gas valve to allow gas in the hoses to burn off before turning off the burner controls.

Clean the burners and grill regularly to minimize the risk of grease fires.

### **Barbecues**

Before using your barbecue for the first time this season, ensure the barbecue is a certified

cooking appliance. Follow manufacturer's specifications for lighting, use and maintenance. Check thoroughly to ensure that all hoses are clear and firmly attached and that there are no leaks or blockages.

### **Propane Cylinder**

Before having a propane cylinder filled, check it for dents, gouges or other signs of disrepair. When having a cylinder filled, ensure that the cylinder is not overfilled. Also, check the expiry date. You should never use or refill a cylinder that is older than ten years.

### **Setting up your BBQ**

Check to ensure all connections are tight BEFORE turning on the gas. Leaks can be detected by dabbing the connections with a solution of soapy water and turning on the gas momentarily. If bubbles occur, there is a leak that must be fixed before the grill is used. NEVER store spare propane cylinders indoors or near a barbecue, heat source or open flames.
