## **FIRE PERMITS WILL NOT BE ISSUED UNTIL THE ONTARIO RESTRICTION IS LIFTED**

### **Coronavirus: Ontario is restricting outdoor fires during COVID-19 outbreak**

The Ontario government is restricting outdoor fires to ensure the province's emergency response can focus on the novel [coronavirus](#) outbreak.

John Yakabuski, Minister of Natural Resources and Forestry, announced that the province's entire legislated fire region will be designed at "Restricted Fire Zone."

Residents who live in an area with a restricted fire zone cannot have an

outdoor fire. This includes burning of grass or debris, campfires, or the use of an outdoor fire grate, fireplace or fire pit.

"During this very challenging time when we are fighting the spread of the virus, our number one priority is the health and safety of the people of Ontario," stated Yakabuski.

"We are putting these important preventative measures in place now to ensure that our emergency responders are able to focus their efforts where they are needed most."

Yakabuski says the restriction will remain in place until Ontario's ability to respond to emergencies is no longer impacted by the COVID-19 outbreak.

Municipalities are working to update their websites with information for residents.

Further rules under a restricted fire zone are available on the [government's website](#).

**Remember burning without a permit, will  
result in a fine.**

### **Dealing with Isolation**

People in isolation may experience a wide range of feelings, including fear, anger, sadness, irritability, guilt or confusion. We are social creatures and need connection to others to thrive, which can make isolation challenging. A trusted source of information dealing with Mental Health and the Covid19 pandemic is "[camh.ca](#)".

## **A message from your Emergency Management Team**

### **Returning Home?**

It is mandatory for all travelers returning to Ontario to self isolate at home for a minimum of 14 days. You must have family or friends deliver groceries or other needs to your home. Social distancing guidelines should be followed. If you are unable to do this and require assistance you may call the municipal office for help.

Also, it is recommended that if you are 70 years of age or older, you should rely on friends or family for groceries or needs as well. Try to stay at home if possible.

Stay safe...stay at home.

### **Vulnerable Citizens Registry**

At the April 14, 2020 council meeting Council approved a confidentiality agreement with the Sault Ste. Marie Innovation Centre that will see the township's municipal office become a registration location for the Vulnerable Persons Registry (VPR).

The township office will distribute VPR registration kits, and provide secure storage for the completed application and consent forms to ensure that personal information remains confidential. The office will then mail the forms in sealed envelopes to the Innovation Centre's VPR Coordinator at 99 Foster Dr.

If you or a loved one in your home have a disability or have special needs, or if you care for a family member suffering with Alzheimer's or Dementia, please consider registering with our Vulnerable Citizens Registry. Help us to help you during an emergency.

For more information or to register email us at the municipal office, [lorraine@twp.prince.on.ca](mailto:lorraine@twp.prince.on.ca) or [cemcpri@twp.prince.on.ca](mailto:cemcpri@twp.prince.on.ca) or you may call 705-779-2992

### **PRINCE TOWNSHIP BUILDING PERMITS**

Permits ensure that construction within the municipality meets with standards set out in the Ontario Building Code. No matter what the specific project may be, the enforcement of codes is carried out to protect public health, safety and welfare. Compliance with municipal by-laws such as the Zoning By-law is also evaluated during the review process.

All permits are administered through the City of Sault Ste. Marie. Phone 705-759-5398 or email [building@cityssm.on.ca](mailto:building@cityssm.on.ca).

## **Tips for keeping your property and neighborhood safe**

### **Lock it**

Lock your garage, your vehicles and your home - even when you are home. It may sound obvious, but many criminals will check to see if doors are unlocked, giving them an easy opportunity to strike. Also, whether or not you have a security system or a dog, put up signs warning people about both. If everything is locked up and criminals are faced with the prospect of additional deterrents, most will move on.

### **Secure it**

Install additional security locks on exterior doors and windows and don't forget about surveillance! When possible, install devices that permit sight to the other side, such as chain link fences, and keep shrubs and bushes trimmed below ground level windows and trees pruned above eye level to eliminate areas of potential concealment. Consider installing a security system as an additional deterrent.

### **Light it**

Turn on your lights! Use timers on your lights when you're away from your home or business so they appear occupied. At night, use outdoor lighting to enhance illumination in dark areas around your property where an intruder might

hide, such as stairwells, alleys and hallways. Install motion lights and/or cameras at all entrances and turn your porch lights on at night.

### **Hide it**

Install and use blinds and curtains to prevent people from seeing inside your home, especially at night. Protect yourself, your belongings and your privacy with good quality window coverings. Consider frosted treatments on garage windows, which will still allow in natural

light, but prevent people from seeing inside your garage. And don't "hide" spare keys under a doormat or in a planter; keep them with a trusted neighbor or nearby business.

### **Remove it**

Never leave valuables in your vehicle, especially a wallet or purse. Take any electronics, such as cell phones, tablets and laptops inside with you, including your remote garage door opener. In many cases, criminals will enter a vehicle for the sole purpose of stealing your garage door opener in hopes of gaining access to your garage and, subsequently, your home. Also be cautious about placing boxes from big ticket items, such as a new television, out for recycling as this can be an invitation to thieves who now know exactly what's in your home.

### **Share it**

Introduce yourself to your neighbor's, as neighbor's who know each other watch out for one another. Get to know other people who live on your street.

Consider setting up (or joining!) a page on social media for your subdivision as a way to communicate and share information with one another. But keep in mind you need to be cautious about what you share on social media sites - even if it's considered a friendly or helpful group. Divulging too much personal information can potentially put you and your property at risk, as there is no way to know or control the intentions of other social media group members.

Do not share or discuss personal information, such as upcoming vacations or when you, or other family members, will be away from your home, on social media. Advertising when you are going to be away from your property for an extended period of time is like hanging a "come on in" sign on your door for thieves. Personal information like this should only be shared with a trusted neighbor, friend or family member who can keep an eye on your property while you're away.

### **Report it**

See something suspicious? If it's an emergency or crime in progress, call 9-1-1.

### **911 SIGNS**

Residents are requested to make sure that 911 civic number signs are clear of trees, etc. The sign should be visible by emergency personnel from 100 ft.
